Frozen unseen object positions | CPU preparation only
Training (39)
Internal validation (1)
Other original (10)
Frozen test (50)
Bowl initial position
World y (mm)
World x (mm)
Plate initial position
World y (mm)
World x (mm)
Distance from original 50
Exclusion threshold: 5 mm
Frozen test count
Nearest original configuration (4D, mm)
Robot, cabinet, object heights and rotations are fixed. Dashed boxes: training coordinate bounds.
4D distance uses [bowl x, bowl y, plate x, plate y]; it is not an individual-object clearance.
